**DECLARATION UNDER 37 CFR 1.132**

1. I am currently an employee of the Intel Corporation and in my capacity as an Intel employee I am involved in research work in various technical fields.

2. I am an inventor of the above-referenced United States Patent Application Serial No. 10/749,466, hereinafter referred to as the "present application".

3. I am also an inventor of United States Patent Application Publication No. 2004/0088701 (Patent No.7,055,145), hereinafter referred to as the "cited reference".

4. The invention disclosed but not claimed in cited reference originated with the inventors of the present application. The cited reference was published on May 6, 2004, less than one year prior to the filing of the present application. Since the cited reference originated with the Applicants, it is not an invention "by another" and cannot be used against the Applicants in the present application.

5. I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these

statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the patent.
